faith and values

NSLF Internship 2019

March - October

Loved the Forum? Looking for further leadership development and a new challenge?

The National Student Leadership Forum is currently taking applicants for its 2019 Internship Program.

This Sydney-based program runs for 8 months between March and October and would complement university studies or part time work.

It is a unique opportunity to grow as an individual and become involved in the Forum in a meaningful and strategic way.

The interns selected each year work as part of a small, dynamic team who pull together the Forum, work with our parliamentary hosts in Canberra and run various community initiatives throughout the year.

Through the context of these relationships formed, we aim to provide a significant experience for those who participate.

The internship was a space for me to dive into new depths, push past my insecurities and intentionally work on my capacity to love and serve others.

Maddy Jones, Past Intern

What to expect?

Practical training and hands on experience in organising a nationally recognised event

Full scholarship to attend the 2019 Forum

The chance to invest deeply with a team of peers who, like you, will be committed to growth, service and making a difference.
